Although Hammond is being held incommunicado while detectives work up further details of the case, it was learned that he declares he can show his return to Georgia. However, Hamthat he spent the night of the murder at a Woodward avenue address. He denies admitting that he took part in the flogging of the slain woman's brother-in-law, an incident which the nected with the killing.

Hammond returned to Atlanta Sunday night from the coal fields of West Virginia.

Hammond was arrested by Chief of Detectives A. Lamar Poole and Special Officer Jack Lawson, of a local cotton mill, concluding a nation-wide search for Hammond as the "keyman" in the Ingram mystery.

Stout denial of any connection with the Ingram murder was made Monday afternoon by Hammond when grilled by detectives. although he admitted being away from home on the night of the murder, Chief Poole said. Hammond also admitted being the author of a letter received from Macon by local detectives, the letter protesting innocence of the crime and stating that Hammond had left Atlanta because religious manufactures and the stating that Hammond had left Atlanta because religious manufactures and the stationary of the stati lanta because police were looking for him on assault and battery charges, it was stated.

Mr. Dennis is now on his way to Washington and until his arrival here, there is apparently little chance that the matter can be cleared up.

Says Dennis Has Copy.

Says Dennis Has Copy.

The Washington Post, which published the story that such a document existed, said that a copy is now in the possession of Dennis. Whether their information came from Dennis or from some person who had knowledge of the state department's secret files could not be determined today but there are indications that the latter assumption is true. This has raised the question of whether, in case the document is a forgery, Mr. Dennis acted upon instructions he thought genuine and exerted pressure to elect Diaz, it is said.

One of the first things Secretary Kellogz is expected to discuss with Dennis is his resignation and the charges of favoritism which accompanied it. Mr. Dennis is understood to have charged that the best and most attractive diplomatic posts go to a certain clique of men who have money and social prestige. His friends say that he turned in his resignation because he had been kept on the job in Nicaragua, a hard post, while his wealthier friends who entered the service when he did, were occupying soft berths in European capitals.

Glad to Investigate.

While asserting that there is no discrimination in the selection of men for assignment and promotion, Secretary Kellogg said today that he would be glad to investigate all the charges attributed to Dennis. He asserted that he always attempted to see that fair treatment was granted to every one.

The secretary assumed responsibility for the recent promotion of ten men, six of whom had attended Harvard college. He asserted that he had no knowledge personally of where these men had gone to college and that he had made the appointments for the higher posts without consulting the foreign service personnel board headed by Acting Secretary of State Joseph C. Grew, a Harvard man.

Mr. Kellogg said that it is his constant effort to see that promotions go to the men who merit them. He emphasized that he considered the men recently selected for ministerial and ambassadorial posts as "eminently qualified men who were chosen because of their ability.

You can put an end to this most troublesome nuisance in your home

MRS. L - - don is a typical Atlanta housewife. For years she endured the same old nuisance in her home. Like many other women, she thought she had to.

She took it for granted that the burning of fuel meant clouds of choking smoke—that it meant black, grimy dirt and greasy soot filtering into her rugs and draperies, and spreading its ugly film over her walls, woodwork and furniture. She even took for granted the frequent (and large) bills for laundry and dry-cleaning; and the annual expenses for painting, papering and refurnishing.

Then, one day, a good friend told her how unnecessary it all was... told her of the simple, easy way to have a CLEAN HOME . . . explained to her that she could end the whole nuisance, once and for all, just by burning SEMET-SOLVAY COKE.

In your home, now, TODAY . . . you can put an end to the nuisance—do away with the smoke, soot and grime that cause you so much trouble.

Just burn Semet-Solvay Coke—the clean fuel. It's much cleaner in the bin, and all through the house. Moreover, it kindles quickly and bolds its fire; gives abundant heat when you need it; requires no special attention—and it's easy to buy because the price is not high.

Order a trial ton today-before you put in your next year's fuel supply. You'll find that the original Semet-Solvay Coke is the ideal fuel for your heating plant.

They were John Swift and

Through good merchandise, and the conviction behind it, the store prospered. In time, departments for men's hats, furnishings, and for boys, were necessary. The store was growing; the Muse merchandise fitted, wore well and looked good; it was value for value; the word was spreading.

The March 5th Edition of The Saturday Evening Post is

3,020,000

This is honest circulation, clean circulation, built solely on the merit of the magazine, without clubbing, cut-rate or catch-penny methods.

The Saturday Evening Post goes to the most intelligent and progressive audience in America — the backbone of the country's buying power.

It has been built up slowly and steadily by appealing to and reflecting the best and most vital things in American life. Its readers are those who support the nation's industries rather than its night clubs.

Its growth has not been based on sensationalism.

It has not been based on an appeal

to the morbid and prurient-minded.

It has not been based on thinly-veiled indecency.

It has been edited on the theory that the tastes and standards of the American public are steadily growing better.

Its editorial policy is based on the belief that America is fundamentally sound and decent and that it is interested in something more than sex and cheap pleasure. Its circulation is the answer of the public to this policy.

It is first, last and all the time an American periodical, convinced of the essential integrity of American principles and intentions.

Will Respect Treaties

The Pekin government made plain that it is still doing its best to induce the powers to negotiate the treaty question with Pekin. Wellington Koo, acting premier, explaining the position of the northern government to the foreign correspondents, asserted that the whole of China was united in its convention not to foreigness but that the whole of China was united in its opposition, not to foreigners, but to special privileges for foreigners, but that therefore any engagements entered into for levision of one-sided treaties would be accepted and respected by the whole of China.

Noted Atlantans Observe Birthdays On Thursday

A trio of notable events are slated for Thursday—observance of the birthdays of Judge George Hillyer and Alexander Campbell Bruce, both 92,

Alexander Campbell Bruce, both 92, and St. Patrick's day.

Judge Hillyer is one of the most distinguished citizens of Atlanta, having held several important offices and at one time served as mayor. He wasborn March 17, 1835, at Athens, but came to this city in his early youth. While serving as judge of Fulton county superior court he had the honor of admitting Woodrow Wilson to the practice of law. He numbers among his intimate friends some of the nation's most prominent leaders.

tion's most prominent leaders.

While Mr. Bruce's birthday falls one day before Judge Hillyer's, both will celebrate the same day. He was born March 16, 1835, at Fredericksburg, Va., but moved to Atlanta 48 years ago. He became connected with the architectural firm of Bruce and Morgan, and was supervising architect on many of Atlanta's prominent buildings before his retirement from active business 20 years ago. He constructed the Grant building.

BITS OF NEW YORK LIFE

BY JOSEPH VAN RAALTE

New York, March 14.-Along Mazda lane the popular idea of culture involves one's ability to say: "So's your old man," in six different lan-guages, including the Scandinavian.

A man may not "know his onions," as the saying has it, but there's never any danger of his friends and acquaintances missing them.

John E. Andrus, New York's 86-year-old millionaire straphanger, got back the other day from Fort Myers, Fla., with his soul full of sunshine and disgust. Mr. Andrus hates to spend money and the Floridians, not aware of that little prejudice, near-ing he was on his way down to Fort Myers, had their cash registers oiled and everything ready for his recep-tion.

"Oh, it was terrible," Brother Andrus, to a flock of faith-ful reporters who met him at the train on his return. "They take the train on his return. "They take the hide off you down there. Nobody turns a corner for less than \$20."

FUNERAL TODAY FOR MAN FOUND DEAD SUNDAY

Funeral services for D. A. Hamnond, 56, of 503 McDaniel street, southwest, who was found dead Sunday morning in a vacant lot between Elliott street and A. & W. P. railroad day morning in a vacant lot between Elliott street and A. & W. P. railroad tracks, with heart disease assigned by the coroner's jury Sunday afternoon as the cause of his death, will be held at 10:30 o'clock this morning from the chapel of Harry G. Poole. Interment will be in Hollywood cemetery.

Police Captain A. J. Holcombe, who was passing when Mr. Hammond's body was found, by several small boys playing in the vacant lot, was told by persons in the neighborhood that Mr. Hammond had been seen to enter the lot Saturday afternoon for the last time. The theory indicated in the coroner's verdict was that Mr. Hammond was stricken by heart disease before he could emerge from the lot.

He is survived by two sisters. Mrs. L. A. Ginn and Mrs. Lon Stegall.

These are but a few of the wonderful advantages of this new discovery, known as "Alertox," which flushes the alimentary tract and re-establishes a natural, healthy action of the liver and bowels, and is much quicker, more palatable, and far more effective than calomel, oils or other nauseating cathartics that goad the liver and work you to death.

Alertox also alkalines the system and thoroughly cleanses it of the poisons that cause auto-intoxication. Get a 25c or 60c size bottle from your druggist with a guarantee of 60 to 90-minute elimination, and as it seldom acts but once, your regular household or business routine is not interfered with. If your druggist cannot supply Alertox sent direct upon receipt of price. Crystal Carbonic Laboratory, Desk 9, Atlanta, Ga.—

Now—put on the roof!

ONLY be sure first, that it is going to do more than merely cover your house. Be sure that it will add a touch of beauty, and harmonize with the rest of the house.

To get such a roof, you need only specify Carey Asfaltslate Shingles in the new "Silver-Green" shade. For this shingle, surfaced with soft-glowing. two-toned slate, provides a roof of rich "silvergreen"-the shade of a dew-tipped meadow. And its beauty is lasting—time nor weather can dim the lustre of this shingle.

The CAREY in SILVER GREEN

This new and exclusive Carey Shingle is as durable as it is beautiful. For it is thicker than the ordinary shingle and half again as large. Lay it with a full 5" exposure—it offers a three-thickness covering-triple protection in any weather. And once on, it stays on—it is "The Shingle that Never Curls." "Play Day" Greeted as Event in Athletics.

It has been made possible this year by the athletic association to have "Play Day" at Agnes Scott. A number of high school basketball teams were entertained at the college to promote a feeling of good will and sportsmanship between the different teams. Those schools accepting the invitation from Agnes Scott were North Avenue Presbyterian school, Girls' High school, College Park High school and Woodberry seminary. They met in the college gymnasium Saturday afternoon, March 12. The mixing of the teams took away any exaggerated spirit of playing to win and emphasized the pure joy of the game. Following these games was one played by the Agnes Scott varsity and the second team as an exhibition game.

The final event of the meet was a banquet given the visiting and college teams by the athletic association. After dinner there was dancing, with music furnished by the college orchestra.

Both visitors and students hailed "Play day" as a pronounced success; every minute was enjoyed by all. Believing that the spirit of play is the most vital element in athletics, the Agnes Scott Athletic association hopes to make Play day an annual event.

Best Way to Loosen Stubborn Cough

This home-made remedy is a wender for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, threat tickle, bronchial asthma or winter tickle, bronchial asthma or winter

tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified honey, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love it.

Pinex is a special and highly concentrated compound of genuine Norway pine extract and palatable guaiacol, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co, Ft. Wayne, Ir

Atlanta Youths Held In Brookhaven Killing Face Trial at Decatur

Decatur, Ga., March 14 .- (Special.) W. B. Cavender and William Sewell, Atlanta youths, alleged companions of J. Sam Boyce, who was shot and instantly killed February 11 in a Brookhaven store by Oscar Rowell, DeKalb county policeman, are expect-ed to go on trial in superior court here Tuesday.

Boyce and Cavender were surprised in the drug store by Patrolman Rowell, who shot Boyce when that youth snapped his gun in the officer's face, according to police. Cavender is alleged to have fired three times at the policeman, but without success, sur-rendering when he saw Boyce drop dead with a bullet just over the heart. Sewell was captured in the waiting automobile.

Cavender and Sewell were bound over to a preliminary hearing and failing to post \$5,000 bond, are contined in jail here.

RESUMEPLAY AFTER LAYOFF

BY C. C. MITCHELL.

After a week of rest the Sunday
School Athletic association awung into action with five basketball games
at the Atlanta Athletic club Monday at the Atlanta Athletic club Monday night. In the American league, the Triple E. class trounced the Grant Park Baptists, 22 to 13, while the Druid Hills Baptists downed the Druid Hills Presbyterians, 27 to 19. The Jackson Hill Baptists kept their slate clean in the National league, by beating the Central Presbyterians, 19 to 8, in an uninteresting game. The Pryor Street Presbyterians had little trouble in trimming the 8t. Paul Methodists, 38 to 22. The last game of the evening proved the best on the card, the T. N. T. class nosing out the Covenant quintet, 36 to 34, in a hard fought same.

the Covenant quintet, 36 to 34, in a hard fought game.

The Covenant lads started the game with a rush and ran up 6 points before the T. N. T. boys could locate the basket. Howard then came through with a pair of ringers which, coupled with a field goal by Brock, knotted the count. From then on during the first half the game was a see-saw affair with neither team having more than a two-point advantage. The than a two-point advantage. The Covenant five was on top, 21 to 19, at the midway. In the last half the T. N. T. boys came back with a rush and it looked for awhile as if they and it looked for awhile as if they would have things easy. Covenant came back with their fighting spirit and the end of the game found them in the midst of a rally and only two points behind. E. Williams, Morris, and Boyd were the big guns for Covenant, while Howard and T. Nicholle led the attack for the win. Nicholls led the attack for the win-

Cracker Yannigans Battle Regulars To 4-4 Deadlock

Cliff Markle Deserts Hold-out Ranks - Spiller Offers Doug Wycoff Contract For Season-Practice Game Lasts Six and One-half Innings.

BY TOM THOMPSON.

The Yannigans and the Regulars battled six and one-half innings to a 4-4 deadlock before Bert Niehoff decided that his Crackers had had enough baseball for one day at Spiller's dell in the regular pre-season

activities Monday afternoon.

All in all, it was a very momentous morning and afternoon, Monday was. Cliff Markle, the wayward curve ball artist on strike from the Crackers, signified his submission by accepting terms offered by Rell Jackson and company. He will join the company the latter part of this week or early next. Rell offered Doug Wycoff, the lambasting Yellow Jacket, a contract. The terms were not divulged. It was firtured that Doug's simon purity of his treethat Doug's simon purity of his Tech days had been somewhat spoiled by his delve into the realm of football as she is played among professionals and so he might as well go ahead and enjoy himself by playing baseball. the Niehoff fold.

In the practice game Alvarez failed to be as impressive as he was reported—but then he did remarkably well considering he started against the regulars in his first practice day. He was nicked for eight hits and four runs. Cueto pranced about in the short field with abandon and dispatch and made himself look generally good.

Galloway put up his usual good showing at short for the yans. He got two hits out of four trips to the plate. Doubles were plentiful, though normals with the short field with abandon and dispatch and made himself look generally good.

Hussane Is Confident Of Win Over Londos

Meeting tough opponents, such as Jimmy Londos, whom he opposes at the city auditorium Friday night, does not disturb Yussif Hussane, "The Terrible Turk." If Hussane was a boxer he would be too old to continue his caseer, but he has taken such excellent care of himself that he is still considered a formidable opponent even for such a star as Londos.

Wrestlers Last Longer.

The truth of the matter is that practically all wrestlers are able to continue their career much longer than other competitive athletes and one of the explanations is the fact that they do not have to make weight for their matches. Boxers and jockeys are confronted with the problem of getting down to a certain weight for their games and often their efforts to make weight are so weakening that they contract consumption and if they experience.

One reason for Paul Jones' widespread popularity with the wrestling fans of Atlanta is the appeal of his youth and his clean-cut tactics on the mat. "It requires seven or eight years of wrestling to fully develop the strength and skill of a grappler. Jones has made wonderful progress considering the fact that he has been in the game only half that long."

Jim Browning, who opposes Jones in the other match on the program at the city auditorium Friday night, has had more experience than his younger foe, but that advantage is offset by the tremendous speed of the Texas star.

Jones and Browning clashed at the city auditorium a few months ago and when their bout was stopped at the end of 40 minutes neither had registered a fall. Since that time Matchmaker Contos claims that he has been there world:

Clearwater, Fla.—A long batting drill and a set-to between the regulars and yannigans marked the Robin's last day of comparative privacy in training. Brooklyn goes to Tarpon Springs Tuesday to meet the St. Louis Browns in the first of a long series of exhibition games.

Bradenten, Fla.—The afternoon workout Monday was a big improvement over the morning drill in the camp of the Phils, due largely to a harsh lecture administered by one Stuffy McGinnis. Stuffy spent the afternoon coaching Russ Wrightstone in the way of a good first baseman. Tuesday the Phils play the Giants.

New Orleans.—With every man on the squad in excellent condition, the Red Sox have started intensive workouts. Taking advantage of beautiful weather. Bill Carrigan worked his men hard Monday. Scrub games will be played Tuesday and Wednesday priliminary to meeting the Pelicans on St. Patrick's day.

Orlando, Fla.—John McGraw looked on a few minutes while the Cincinnati Reds were heating the Indianapolis club, 14 to 0, Monday in a game featured by two homers by Ethan Ellen. McGraw returned to Sarasota after telling Gerry Hérmann that helieves Adolfo Luque is ready to report to the New York club.

Shreveport.—The White Sox devoted Monday to a critique of their pre-season game of Sunday. The ax is expected to fall in the first releases the latter part of this week.

O'Keefe Jr. Five Beats Bass, 31-11

O'Keefe juniors swooped down on the Bass five Monday afternoon and defeated them 31 to 11 on the latter's court, and also held them without a field goal during the second playing period

To start the battle O'Keefe ran signals for a two-pointer at the first toss, and throughout the first half they had things their way. It was in the second period that the Bass defense tightened and held the winners

Ain't We Got Fun?

At last the time has come when we can write, say, sing or whistle what we like without fear of the dire consequences which usually pursue in the footsteps of prevarication.

The accompanying cut is self-explanatory and though the license is issued for the express purpose of permitting the bearer to tell fish stories of questionable proportions, it has always been our practice to indulge in that sport without a license, so we take this opportunity to warn the public that we will not confine our fabrications to fish stories in the future -we heard that remark. Was it nice?

Seriously now, did you ever tell one about the fish that got away and then feel just a little bit self-conscious when you turned and saw the fellow standing there, who was fishing with you when the little fellow got away? Uhuh, us too. "Well, now we will tell our story and flash our license at the same time, and d-ned be he who first cries, 'hold,

We are going to have a fine opportunity to try out our new license today by taking a trip to Waynesboro with two gentlemen who will give us something to shoot at in the way of fish stories, and they will not dare tell any fish stories about the big catches (over the limit) because the two gentlemen are Peter S. Twitty and Horace Bridges, of the game conservation

It is entirely fitting that we should try our new license in Waynerboro, because some of our friends there may have checked up on the tales we told at the field trials. If Joe Reynolds or Sim Bell start any arguments now we will have the goods to show them.

Incidentally, we are going to Waynesboro to attend the first meeting of the Izaak Walton league chapter in that city, and we are going with the very clear expectation of a rip-roaring good time, and why shouldn't we after attending a week of field trials as the guest of Waynesboro's sportsmen?

The seasoned campaigners of the American and National leagues of other years have now had time to strike their stride without fear of overused muscles, or strained liga-ments, is the theory of most pilots, and from now until the regular schedule opens, they will get the large portion of work.

As for the youngsters, most of them have had ample time to show their wares and presentation of one way tickets to minor league points will be their cue, generally speaking, for the

next few weeks.

Bob O'Farrell, who trimmed nine large eating youngsters from the St. Louis Cardinals' training table Saturday at Avon Park, said Monday, nowever, that he had about shot his "wad." Only a couple more will be "farmed" while the regular roster of 26 will start the chase for another championship.

Busy.

The Washington Americans at Tampa; St. Louis Browns, at Tarpon Springs; the Brooklyn Robins at Clearwater, and Philadelphia Nationals at Bradenton, all followed routine duties during the day but will swing into combat today. The Phillies face the Giants at Bradenton, it he Senators will line up against their Yennigans in a full fledged game, while the Browns and Robins meet at Tarpon Springs.

Over in New Orleans, the Boston Red Soy confined their workout to betting and fielding practice.

market was easier today, and while offerings were more aggressive, buyers were inclined to hold off. The only sale confirmed was 5,000 bags of Porto Rican for prompt shipment at 4,86. At the close sugars were offered at the same price.

Raw sugar futures were weak, influenced by the decline abroad and inactivity in the spot market. With supplies in Cuba increasing at a rapid rate, holders were apparently more disposed to make commitments and finding no ready buyers for the actual, sold futures heavily. DOW JONES REPORT. Outlook for oil industry first half of 1927 at least is not good. Price cuts in crude and refined oils will result in lower earnings and in many cases recourse to private or public financing. Opinions differ whether latest mid-continent price reduction on Saturday is last of series. Large oil interests who have been p-ssimistic on prices would not be surprised if another cut is made later.

Seminole Pool is still the key to overproduction and lower oil price structure.

There will be some natural decline in old part of Seminole, but two pools in Seminole district yielding 40,000 barrels have upwards of 200 drilling wells with 40 near completion.

Companies with Seminole production will

Companies with Seminole production will benefit to extent that will help lower average cost a barrel of getting oil to surface. Other companies not in Seminole will have larger burden to bear by reason of lower prices. But big profits anticipated in Seminole will not develop from new price of \$1.38 a barrel for that grade of oil, which was bringing \$2.69 a barrel last November.

Washington—Despite continued ease of money rates it may be predicted upon reliable authority that discount rates of federal reserve banks will remain unchanged for a considerable time at least. Present policies of federal reserve system appear to be definitely adjusted to maintenance of discount rates at existing levels. Such was the advice of advisory council at its recent meeting with federal reserve board.

Steady absorption of Texas Gulf Sulphur was one of the noteworthy incidents of the day, lifting the stock to new high levels. Preeport Texas, the only other listed sulphur stock, naturally was favorably influenced, rising similarly to new high levels. Texas Gulf's unusual position makes mossible the payment of the greater part of earnings in the way of dividends and opinion generally held is that the rate will be raised to a \$5 level at the May meeting U. Approximately 3,000,000 cases of eggs, worth slightly more than \$50,000,000, were marketed cooperatively in the United States in 1925 by farmers, egg and poultry associations. This figure, compiled by the United States department of agriculture, compares with 2,400,000 cases, worth \$22,000,000, handled cooperatively in 1924.

The department's estimates are total volume of the associations handled more than 500,000 cases each. The department's estimates are based on reports from about 60 active egg and poultry associations. These associations are located in 21 states. Their business is believed to comprise most of the egg marketing done cooperatively in the country. A few associations failed to report the volume of their business to the department, but these are small concerns whose figures presumably would not greatly affect the total.

One of the California associations handled 782,070 cases of eggs last year. This was the largest quantity handled by any one cooperative contotal volume of the associations' busi-

ing studies, the department has made an attempt to find out what amount of poultry is handled cooperatively in the United States. There is less infor-mation available about poultry marketing than about egg marketing.

However, the department says a total of 12,328,057 pounds of live poultry was handled last year by 31 cooperative associations. Sixteen asso ciations handling dressed poultry re-ported the marketing of 4,990,510 pounds in 1925.

Chicago, March 14.—(P)—The Daily News says today that British textile industries have reaped a harvest of profits, estimated by Aaron Sapiro, general counsel for some of the principal cooperative marketing associations of the country, at more than \$50,000,000. The profits, the News says, are a result of the recent tumble in the American cotton market due to overproduction.

When American cotton growers dumped their products on the market and the price tumbled the British interests quietly bought in on an un-The council felt, however, that should interest rates continue to decline federal reserve banks should reduce their holdings of bills bought in open marget. Wall street's optimism which has been steadily growing under the stimulating influence of expanding business and abundant credit facilities was heightened at the start of the week when call money held throughout the session at 4 per cent, notwithstanding substantial withdrawals in preparation for March 15-settlements. General Motors pushed shead on a large turnover, selling well above the best price previously attained by the shares in their existing form. Weakness developed in a number of issues which were depressed by influences affecting only themselves. Among these were the American Weolen issues. New York, March 14.—(By the Associated Press.)—Speculators for the advance retained control of the price movement in today's stock market, which was featured by the spirited bidding for General Motors which crossed 175 to the highest price ever recorded under the present capitalization. Total sales in this issue ran close to 190,000 shares or more than one tenth of the entire day's business, with the closing quotation of 175 1-4 representing a net gain of 4 1-8 points. Renewal of selling pressure against some of the oils, textiles and specialties caused some irregularity.

Preparations for the record-breaking turn-over of funds tomorrow resulted in the calling of about \$10,000,000 in bank loans, but new funds were quickly forthcoming, and the call money rate was unchanged at 4 per cent. A slightly stiffer tone was apparent for some of the long maturities in the time money market. The federal reservebank's weekly report of brokers' loans showed an increase of \$6,066,000.

REACTION HITS PRICES ON CURB

New York, March 14 .- (By the Associated Press.) Reactionary price tendencies predominated in today's curb market although several strong spots cropped out during the session. Trading showed a market contracted in volume, with floor traders again providing the bulk of the day's busi-

ness.

Widespread cuts in gasoline prices brought about further liquidation of the oils by tired holders of long stock. Some of the pipe line shares, such as Illinois and Prairie, recorded good gains, but Vacuum dropped 2 points and most of the other active issues yielded fractionally.

Tidewater-associated common sank to a new low below \$20 a share, the syndicate in that stock expiring March 20, unless a further extension is arranged.

Sharo gains were recorded by a

is arranged.

Sharp gains were recorded by a number of ordinarily inactive public utilities such as Alabama Power preferred, Blackstone Valley Gas & Electric, and Southern Cities Utilities common and certificates. Among the more active issues. American Gas & Electric and Consolidated Gas of New York (new) made the best showing.

In the industrial group, new high records were recorded by Case Plow, General Fireproofing, Massey Harris and a few others. The general run of industrials lost ground although in most cases the losses were held to fractions.

N. Y. Stock Transactions | WORLD SHIPMENTS

Chicago, March 14.—(A)—Enlarging world shipments other than from the United States and Canada, together with the promising domestic crop outwheat today. Export demand for North Amreican wheat lacked volume, sales in all positions being only 300,-000 bushels. Closing quotations on wheat, although steady, were 1-8c to

wheat, although steady, were 1-8c to 1-2c net lower, corn 5-8c to 3-4c off to 1-8c up. Oats 1-4c to 1-2c down, and provisions varying from 2c setback to a rise of 7c.

Lowest prices yet on the present movement were touched by May delivery of wheat. Offerings here were not especially heavy, but rallies proved feeble. The fact that world shipments for the week amounted to nearly 5,000,000 bushels more than for the previous week stood out in obtrusive fashion notwithstanding evidence that European stocks are remarkably slow to increase. In this connection, however, bears pointed out that pressure of southern hemisphere supplies will perhaps continue for several months.

will perhaps continue for several months.

Counting further against the buying side of the wheat market were reports that Kansas, Oklahoma and Texas have the best moisture supply in a year, that chain stores in New England have cut bread prices one cent a loaf, and that the United States wheat visible supply is still 15.443.000 bushels in excess of last year, despite \$28,000 bushels falling-off this week. Hopes expressed of better demand for United States wheat were based on the good keeping quality and higher protein content than of wheat from below the equator.

Corn reflected 1.484,000 bushels increase of the visible supply. Furthermore, Montreal wired that cash interests there had Argentine corn bought for every month's shipment up

bought for every month's shipment up to August. Oats followed corn.

SET FOR CHARLESTON

Brunswick, Ga., March 14.—(Special.)—The South Atlantic Coastal Highway association, with Frank O. Miller, of Jacksonville, president; W. S. Wilkinson, of Rocky Mount, vice president, and Fred G. Warde, of Grunswick, general secretary, will hold its seventh annual meeting in Chareston, S. C., at the Francis Marion, ottel April 20, it is announced here.

hotel April 20, it is announced here.

The work of this association started seven years ago to foster a harsurfaced highway from Calais, Maine,
on the Canadian border, following

he coast through the states of Maine, lew Hampshire, Massachusetts, Rhode sland, Connecticut, New York, New

Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Virginia, North Carolina, South Carolina, Georgia and Florida, a distance of considerably over 3,000 miles. With the exception of a few miles, this highway is practically hard-surfaced for its entire distance and with the work which is now under way, it is stated that the Atlantic Coastal highway will be the first completely hard-

nember. These greetings were read by C. Dana Gibbs, superintendent of the Sunday school. There was special music under the direction of Miss Helen Schaid, pianist and musical director.

The service was presided over by Dr. W. H. Major, pastor, who has been serving the church for the past thirton.

CITY BUILDER TELLS OF STATE COLLEGE ON SPARTAN LINES

A Georgia college built along Spartan lines is described by H. C. Hamilton in the March issue of "the City Builder" as the "West Point of Georgia gia." The article refers to the Georgia State Agricultural college situated near Dahlonega in the Blue Ridge mountains of North Georgia.

Mr. Hamilton lauds the school's surroundings as being ideal from the treatheaints of health and praying the standard of the school of the standard of the school of the standard of the school of the sc

standpoint of health and natural beauty, while the mountain ranges give an isolation from worldly inences which might tend to disturb routine. Students are habitually in uniform and under constant military discipline. The war department has designed the school as one of eight "essentially military" colleges in the United States, the article declared.

In contrast with the expense often attending a present-day collegian's school year, conservative estimates of which are furnished by middle Western colleges at between \$700 and \$800, the annual cost at the state agricultural college is not expected to exceed \$250, it was stated.
The curriculum is of the best, Mr.
Hamilton said, the courses in liberal

arts and applied sciences being com-parable with those of modern universi-ties in every respect, while the mathees department is especially strong,

INVITED TO ALABAMA Miss Rhoda Kaufman, head of the ate department of public weltare, as been invited to deliver an address at the annual conference of Alabama social workers which will be held at Gadsden, Ala., April 3-6. Miss Kauf-

MISS RHODA KAUFMAN

Gadsden, Ala., April 3-6. Miss Raufman will talk on juvenile court work.

Mrs. Edgar A. Davidson, publicity director of the department, also was invited to attend the conference.

At present Georgia has 125 juvenile courts functioning and plans are being worked out for the installation of others soon.

LOCOMOTIVE "TEXAS" STRUCK BY AUTO

The historic locomotive, Texas, of turbulent civil war days, figured in another misshap early Monday morning when an automobile operated hy an Ohio motorist crashed into the veteran wood-burner. The engine was eing moved from its former place on Grant Park hilltop to a new berth the Cyclorama building Saturday when nightfall forced workmen to leave the engine on South Boulevard. The automobile came off second best in the collision, and was removed to a local garage for repairs, it was said.

FOR COAL STRIKE

Indianapolis, March 14.—(Unfled News.)—With the expectation that more than 300,000 bituminous coal miners will strike April 1, mines are working full blast.

The bituminous industry apparently is drifting toward a shutdown.

John L. Lewis, international president of the United Mine Workers, has declared a heavy storage near Murphysboro, Ill.

Activity in the southern Illinois is both unofficial of the action is both unofficial of the wage.
